Drive Faster Sales, Boost Margins and Build a Stronger Brand

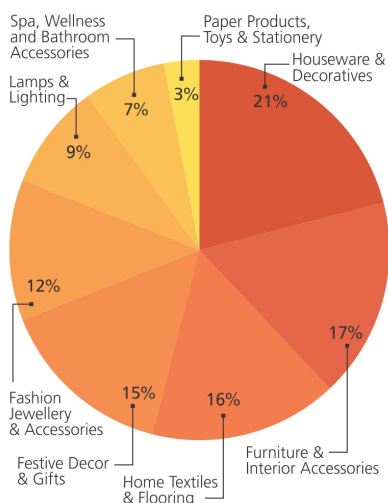

IHGF Delhi Fair-Autumn 2024 is to open its doors with a composition of 3000+ exhibitors across 16 halls and 900 Permanent Showrooms, with engagements like Knowledge Sessions, Craft Demonstrations, Ramp Shows, Culturals, etc. This iconic event, organised by Export Promotion Council for Handicrafts, is driven by India's skilled makers and suppliers, who seamlessly blend traditional and cultural elements with contemporary designs to offer an unparalleled variety of products, particularly in the home fashion category.

Contemporary Lifestyle Elements & Inspirations

The fair's 14 segments in Home, Fashion, Lifestyle, Furnishing and Furniture are to offer choice of over 2000 products and more than 300 trend specific design developments through extensive product presentations in housewares, home furnishings, furniture, gifts and decor, lamps and lighting, Christmas and festive decorations, fashion jewellery and accessories, spa and wellness products, carpets & rugs, bathroom accessories, garden accessories, educational toys & games, handmade paper products and stationery, as well as leather bags & cases. Visitors can explore India's unique product offerings that stem from contemporary design inspirations, authentic craftsmanship and a rich raw material base, resulting in curated selections of innovative and customizable pieces, alongside a unique range of modern, distinctive and high-end items. These highlight exceptional material quality and design excellence, as well as added value across home accents, decorative knick-knacks and practical utilities.

Sustainable Design Developments

The Unique Edge of Indian Handicrafts

India's handicrafts sector thrives on a diverse base of design innovations that span across its many manufacturing hubs and craft concentration areas with a celebration of materials, crafts, processes and most times the forms too, that are native, sustainable and often unique. This rich diversity is rooted in a heritage that has always celebrated the harmonious co-existence of humans and nature.

Sustainability is a way of life in India, ingrained in the nation's cultural fabric. From traditional practices to contemporary designs, artisans continue to blend creativity with respect for nature, crafting a future that honors both heritage and sustainability. Sustainable lines, heirloom techniques and regional nuances will be emphasised at the fair.
